MISSION STATEMENT

The University of North Carolina at Chapel Hill

The University of North Carolina at Chapel Hill has been built by the people of the State and has existed for two centuries as the nation's first state university. Through its excellent undergraduate programs, it has provided higher education to ten generations of students, many of whom have become leaders of the State and nation. Since the nineteenth century, it has offered distinguished graduate and professional programs.

The University is a research university. Fundamental to this designation is a faculty actively involved in research, scholarship, and creative work, whose teaching is transformed by discovery and whose service is informed by current knowledge.

The mission of the University is to serve all the people of the State, and indeed the nation, as a center for scholarship and creative endeavor. The University exists to teach students at all levels in an environment of research, free inquiry, and personal responsibility, to expand the body of knowledge; to improve the condition of human life through service and publication; and to enrich our culture.

To fulfill this mission, the University must:

- acquire, discover, preserve, synthesize, and transmit knowledge;
- provide high quality undergraduate instruction to students within a community engaged in original inquiry and creative expression, while committed to intellectual freedom, to personal integrity and justice, and to those values that foster enlightened leadership for the State and nation;
- provide graduate and professional programs of national distinction at the doctoral and other advanced levels to future generations of research scholars, educators, professionals, and informed citizens;
- extend knowledge-based services and other resources of the University to the citizens of North Carolina and their institutions to enhance the quality of life for all people in the State; and
- address, as appropriate, regional, national, and international needs.

This mission imposes special responsibilities upon the faculty, students, staff, administration, trustees, and other governance structures and constituencies of the University in their service and decision-making on behalf of the University.

Founding

The University of North Carolina opened its doors to students on January 15, 1795 as the first state university. New Hope Chapel (now Chapel Hill) was chosen for its central location as the site of the University. Hinton James, the first student to enroll, arrived in February 1795. By March 1 the University had 41 students and 2 professors. Seven students, including Hinton James, received their diplomas in 1798, becoming the first graduating class of the University. Authorized by the State Constitution in 1776, the University was chartered in 1789, and was the only public university in the nation to award degrees to students as early as the eighteenth century.

Women were first admitted to the University in 1897. However, admittance was permitted only for bona fide residents of Chapel Hill in graduate courses or as upper level transfers. The first five women to enroll were Mary Shackelford Nee McCrae, Cecye Roanne Dodd, Lulie Watkins, Sally Walker Stockard, and Dixie Lee Bryant. In 1898, Sally Walker Stockard received her bachelor's degree becoming the first woman graduate of the University. In 1917, Lillie Dale Whitaker, Mary Louise Stover, Mary Louisa Cobb, and Nell Abbie Patterson Pickard enrolled as the first female freshmen.

Organization

The University was consolidated in 1931 with the Women's College at Greensboro and North Carolina State College at Raleigh under a single Board of Trustees. In 1971 the General Assembly redefined the University of North Carolina System to include all 16 of the four-year public higher education institutions in the State. The Board of Governors was established as the governing body responsible for all basic policies for the University of North Carolina as a multi-institutional university.

UNC-Chapel Hill and the other institutions that comprise the UNC System each has its own separate administrative structure. The 16 constituent institutions, year they were founded, and their Chancellors are listed below.
